DA-LEE ENVIRONMENTAL SERVICES

Da-Lee Environmental Services has been servicing Industrial & Commercial customers in Southern Ontario for over 40 years. Our fully licensed (Ministry of the Environment) approved facility is centrally located in Stoney Creek, Ontario. Our experienced employees will deliver, safe, professional services in the following core competencies.

▶ WATER TREATMENT

In October 2015, to better serve our customers and to stay a head of the ever changing environmental requirements in Ontario, the Da-Lee Group opened a state-of-the-art, Industrial Waste Water Treatment Plant. With over 1 million litres of storage capacity, we have the flexibility to process and treat many different types of liquid industrial waste. Our experienced team constantly samples and tests liquid from the process to insure all treated waste meets all city and provincial regulations and guidelines.

▶ SLUDGE SOLIDIFICATION

Da-Lee Environmental Services just completed construction of second waste solidification pit. The new construction easily doubles our capacity to process Industrial/Commercial sludges to meet slump tests required by landfill operators in Ontario.

Da-Lee Environmental Services
transports and receives over 40,000,000 litres
of hazardous & non-hazardous waste per year.

▶ VACUUM TRUCK SERVICES

Da-Lee Environmental Service's fleet of trucks range from 35000 l tractor trailers to 18000 l vacuum rated straight trucks. Our fleet is maintained to the highest safety standards by our in house mechanics.

INTERCEPTOR + TRENCH CLEAN OUTS

Da-Lee Environmental Services offers Interceptor and trench cleaning services to Garages, Truck Terminals, Retail & Commercial vehicle maintenance facilities. Stay in compliance, The Ontario Water Resources Act (Section 53) reads that the interval between interceptor clean-outs should never exceed 12 months regardless of the amounts of oil & solids collected.

▶ PROFESSIONAL SERVICES

Da-Lee will take care of your containerized waste. We are fully licensed to transport & process a wide variety of Hazardous & Non-Hazardous waste. We also offer Generator Registration and LDR assistance. Whether you have totes, drums or pails we can sample, characterize and label your waste for proper pick up and disposal.
